

## Do you need support?

## Your Team Around the Family .....

### What?

Team Around the Family (TAF) meeting is a way of receiving extra support for your family needs, to put the support in place and helping you and your family move forward

### Why?

After the needs of your family have been identified. It is important for support to be put in place. To ensure that you and your family receive the right support, to help with the concern, build your resilience and find your voice.

### Who?

Once you have agreed for a TAF to be held, the lead practitioner will speak with you about who you would like to invite. This could be anyone from friends and family including children to professionals such as a Youth Worker, Health Visitor or a teacher.

### Where & when?

This is your family meeting; therefore, you can have your say around where & when the meeting is held.

At home, a school or somewhere neutral, also which time of day best suit your family (around your working hours)

Speak with the lead practitioner to confirm the venue.

If you are not able to attend e.g health reason, travel issues you can request using a video call instead.

### The TAF.....

The family plan will be completed during the TAF capturing the views shared. As this is your TAF, it is important that you understand everything that has been discussed and are happy with the actions

You will be asked "what's going well?" & "what are you worried about?" . Please ask if you are unsure of something.

You will then be asked for permission to share your family plan with other professionals, such as those that couldn't attend

At the end of the TAF, a review meeting should be agreed.

At review, you will all have time to reflect on the original family plan, to see what the outcome of actions is. This is your time to share your concerns or success story

If it is agreed by all within the plan, your family no longer require support. Your family TAF can be closed.

The following website could be useful to you – please take some time to visit and contact the appropriate service  
That would meet your families needs
